Dear Eddie:

Where do I begin...???

First, I just wanted to thank you for being a part of our celebration for our robotic prostatectomy patients and their families. Your presentation was the perfect way to begin our celebration. You are a bundle of positive energy and you were able to relate to our guests being a cancer survivor yourself. The presentation was upbeat, informative and the attendees were able to relate to so many of your own experiences. They really enjoyed receiving their little "smiles" as they shared their good news with all of us.

Second, I truly enjoyed meeting you. I was thrilled when you were able to fill in last minute for our celebration. But it must have been meant to be, because you were "just what the doctor ordered!"

I also wanted to let you know that we received so many positive responses from our guests. Even our own doctors who were in the auditorium enjoyed your presentation.

I wish you all the best in the future and may you continue to be "cancer free!"

Keep up the great work you are doing. I hope that our paths cross again some day.

Sincerely,

A handwritten signature in cursive script that reads "Mary Lou Simmons".
